FIRST IN LEDs.

LITE FLARE

The Lite Flare's unique design provides a safe, transportable flare that can be seen from more than a mile away. Lite Flare is also long-lasting, with over 400 hours on-time. Storing neatly into trunks, glove compartments or safety boxes, it is also lightweight and economical. With rugged durability, Lite Flare is strong enough to be driven over with a car. Its well-thought-out case design resists snow, water and fuel spills. There simply isn't a more practical, brighter, longer-lasting flare than Lite Flare. Available in red and packs of six.

LF6 **Lite Flare, 6 Pack** **\$169.00**

The 360 Star® is a virtually maintenance-free lighting solution for a wide range of law enforcement, fire and rescue, and light- and heavy-duty equipment applications. The 360-degree viewing angle provides superb visibility for your vehicle.

The 360 Star has an extremely low amperage draw and consumes as much as seventy percent less energy than traditional strobe and halogen technology. You can even operate the 360 Star while your engine is off, saving fuel and strain on your vehicle.

Take a good look at our remarkable new LS12® "undercover" lights. Brighter than the original LS12, these new lights still feature a sleek, discreet design with rugged performance and reliability. The new, upgraded LS12 is also available in switched, hard-wired and stop-turn-tail models, all with rear-cord attachment. Also included is a variety of color configurations as well as a new bracket style for quick, easy installation.
