## 12 Volt Power

Provides power to run accessories, with automatic circuit protection to eliminate overloads.

## Automatic Charging

The convenience of automatic charging allows you to the unit in an always-ready state.

## Battery Status LEDs

Provide a quick, at-a-glance snapshot of battery condition.

## Heavy-Duty Cables

Heavy-gauge cables ensure safe and effective power transfer and enable ideal unit placement during jump starting.

## ES Series Batteries

High performance, replaceable ES Series batteries, specifically designed for automotive jump starting applications.

## Booster PAC/Truck PAC Jump Starters
