

STEEL Tanks feature 14-gauge steel construction for long-term durability. Internal baffles reinforce the high-strength design and control the flow of the contents when moving. All tanks have been pressure tested.

Model 498002
Designed For Trucks
With 4-Door Cabs
And Short Beds

484000

485000

482000

480000

ALL TRANSFER TANKS FEATURE:

- High-Strength 14-Gauge Steel construction for long-term durability
- Internal Baffles add strength and control the flow of the contents when moving
- 2" NPT Bungs on both sides for easy, convenient access
- Lockable Cap and Coupler prevent pressure build up. Filter system recommended
- Lifting Rings to assist with moving an EMPTY tank. Rings will not support a tanks and contents
- Heavy-Duty Brackets to secure the tank securely to the truck bed
- Tanks have been pressure tested for leaks

CAUTION: Do not connect the tank directly to a vehicle's fuel system. Tanks are designed for combustible liquids such as diesel fuel AND DO NOT meet DOT Specifications for flammable liquids such as gasoline. Contact local Fire Marshall or Fire Chief to determine restrictions
