

HOT. IN SO MANY WAYS.

MODEL
9800

Best-in-Class "Smart" Heating System

Clears ice and snow twice as fast as conventional halogen lights and exceeds strict military standards.

Superior Illumination

Crisp white LEDs are as bright as the law allows, to precisely light your path and make you more visible.

Multi-Functional Operations

A powerful high beam and precise low beam, plus an integrated turn signal and front position light.

Sleek Low-Profile Design

A bolt-on retrofit for municipal, agricultural and snow-plowing vehicles, this powerful light is just 5" high.
