## 12 Volt Power

Provides power to run accessories, with automatic circuit protection to eliminate overloads.

## Heavy-Duty Cables

Heavy-gauge cables ensure safe and effective power transfer and enable ideal unit placement during jump starting.

## Automatic Charging

The convenience of automatic charging allows you to the unit in an always-ready state.

## Battery Status LEDs

Provide a quick, at-a-glance snapshot of battery condition.

## ES Series Batteries

High performance, replaceable ES Series batteries, specifically designed for automotive jump starting applications.

## Booster PAC/Truck PAC Jump Starters

Model	Description
ES2500	900 Peak Amp 12 Volt Jump Starter 21" #4 ga Cables; Hot Jaw™ Clamps; Auto Charging Replacement Battery Kit for ES2500
ES1217	
ES5000	1500 Peak Amp 12 Volt Jump Starter 43" #4 ga Cables; Hot Jaw™ Clamps; Auto Charging Replacement Battery Kit for ES5000
ES1230	
ES6000	3000 Peak Amp 12 Volt Jump Starter 54" #4 ga Cables; Hot Jaw™ Clamps; Auto Charging Replacement Battery Kit for ES6000 (pair)
ES1240	
ES8000	1500 Peak Amp 24 Volt Jump Starter 54" #4 ga Cables; Hot Jaw™ Clamps; Auto Charging Replacement Battery Kit for ES8000 (pair)
ES1240	
ES1224	3000/1500 Peak Amp 12/24V Jump Starter 12/24V Operation; 60" #2 ga Cables; Hot Jaw™ Clamps; Auto Charging Replacement Battery Kit for ES1224 (pair)
ES1240	

## Jump-N-Carry Jump Starters

Model	Description
JNC300XL	900 Peak Amp Ultraportable 12V Jump Starter 27" #4 ga Cables; Full Size Clamps; Built-in Flashlight Replacement Battery Kit for JNC300XL
JNC065	
JNC4000	1100 Peak Amp 12 Volt Jump Starter 23" #4 ga Cables; Industrial-Grade Clamps; Volt Gauge Replacement Battery Kit for JNC4000
JNC100	
JNC660	1700 Peak Amp 12 Volt Jump Starter 46" #4 ga Cables; Industrial-Grade Clamps; Volt Gauge Replacement Battery Kit for JNC660
JNC105	
JNC950	2000Peak Amp 24 Volt Jump Starter 46" #2 ga Cables; Hot Jaw™ Clamps; Auto Charging Replacement Battery Kit for JNC950
JNC080	
JNC1224	3400/1700 Peak Amp 12/24V Jump Starter 12/24V Operation; 46" #2 ga Cables; Hot Jaw™ Clamps; Auto Charging Replacement Battery Kit for JNC1224 (pair)
JNC110

## Built-in Charger

The ultimate in convenience – it never gets lost!

## Industrial-Grade Clamps

Penetrate corrosion on battery terminals.

## Clore PROFORMER™ Battery

Specifically developed to meet the demands of everyday professional jump starting.

## Status Gauge

Provides a detailed assessment of battery condition.

## Heavy Gauge Cables

46" #4 gauge cables remain flexible in extreme temperatures and enable ideal unit placement during jump starting.

## PRO-LOGIX Wheel Chargers

**PRO-LOGIX**

## Quad Force Rectifier

Meets the demands of everyday professional use.

## Industrial-Grade Clamps

Rugged, Industrial-Grade clamps provide strong battery connections and efficient power transfer.

## Transoid™ Transformer

The SOLAR transoid transformer design delivers break-through performance and efficiency.

## Comfort-Walk™ Handle

Shop mobility is a snap with the Comfort Walk handle.

## EZ View™ Control Panel

Provides easy access to gauges and controls.

## Ships Fully Assembled

All SOLAR Octane Series Wheel Chargers ship fully assembled, saving time and effort right from the start.

## SOLAR PRO-LOGIX Wheel Chargers

Model	Description
PL3730	6/12V, 60/40/15/5/275A Wheel Charger with Start Fully automatic charging in 12 or 6 Volt mode. Advanced charging logic to properly charge all battery types.
PL3750	6/12/24V, 60/40/15/5/250A Wheel Charger with Start Convenient, versatile fleet maintenance. Auto operation in all voltages including 30A high 24V charging. 250A engine starting assistance (12V).

## SOLAR 1002

## 1.5 Amp Underhood 12 Volt Automatic Battery Charger

With underhood mounting and automatic operation, the SOLAR 1002 brings convenience to the task of keeping seasonal-use batteries in top condition. Includes battery mounting kit.

### SOLAR Pro-Logix Battery Chargers Beneficial Charging for a Wide Variety of Batteries

With the increased use of non-traditional starting batteries in today's vehicle, it is important to have a battery charger that can properly charge both flooded-type starting batteries as well as AGM and Gel Cell batteries.

**Standard • Maintenance-Free • AGM  
Gel Cell • Marine • Deep Cycle Compatible**

### SOLAR Pro-Logix Battery Maintainers Beneficial maintaining for a Wide Variety of Batteries

With the increased use of non-traditional starting batteries in today's vehicle, it is important to have a battery maintainer that can properly maintain both flooded-type starting batteries as well as AGM and Gel Cell batteries.

## SOLAR Power Inverters

### Wide Range of Sizes

With the SOLAR Power Inverter offering, there is a model to meet every application need..

### Power Display

1500W and 2000W models feature a convenient display to assist in management of power demand.

### Safety Features

Safety features include overload protection, under voltage alarm and under/ over voltage protection.

### Convenient

Convenient designs, such as the can-shaped PI15000X.

## SOLAR Power Inverters

Model	Description
PI1500X	150 Watt Power Inverter (1) AC Outlet; (1) USB Outlet; Convenient Cup Shape
PI5000X	500 Watt Power Inverter (2) AC Outlets; (1) USB Outlet
PI10000X	1000 Watt Power Inverter (2) AC Outlets; Mounting Plate
PI15000X	1500 Watt Power Inverter (3) AC Outlets; Power Display; Mounting Plate
PI20000X	2000 Watt Power Inverter (3) AC Outlets; Power Display; Mounting Plate
PI30000X	3000 Watt Power Inverter (3) AC Outlets; Power Display; Mounting Plate

## SOLAR BA Series Digital Battery Testers

### Extra-Long Cable Leads

Model No. BA327 features extra-long 10' cables leads for easy in-vehicle use.

### Built-in Printer

Model No. BA327 features a built-in printer for easy service documentation.

### Bright Displays

Provide easy viewing in high and low light environments.

### Compatible with Multiple Battery Types

Compatible with Standard, Maintenance-Free, AGM, Gel Cell, Deep Cycle and Marine batteries.

### Quick, Accurate Battery Analysis

SOLAR BA Series Digital Battery Testers provide quick, accurate analysis of battery condition.

## BA Series Battery and Battery/System Testers

Model	Description
BA5	Digital Battery Tester For 12V batteries: Range: 7-15V.
BA7	Digital Battery and System Tester For 12V batteries and systems: Range: 7-15V.
BA44	Digital Battery and System Tester For 6/12V batteries and systems. Range: 4.5-29.9V, 40-2000 CCA.
BA327	Digital Battery and System Tester with Built-in Printer For 6/12V batteries, 6/12/24V systems. Range: 4.5-29.9V, 40-2000 CCA.

### SOLAR BA1

### SOLAR Digital Voltmeter

Compact, portable size provides convenience while a brightly lit display can be easily read in both high and low light environments.
